

Initiée au début des années 2000, la numérisation des livres continue, orchestrée par les géants du Web et par les plus grandes bibliothèques du monde.

Chaque page est scannée, retouchée, ocrisée, stockée avec un appétit sans fin. Les pages blanches n'échappent pas à ce processus. Cette édition rassemble une collection des «plus belles» pages blanches glânées dans la collection de la biodiversity heritage library.

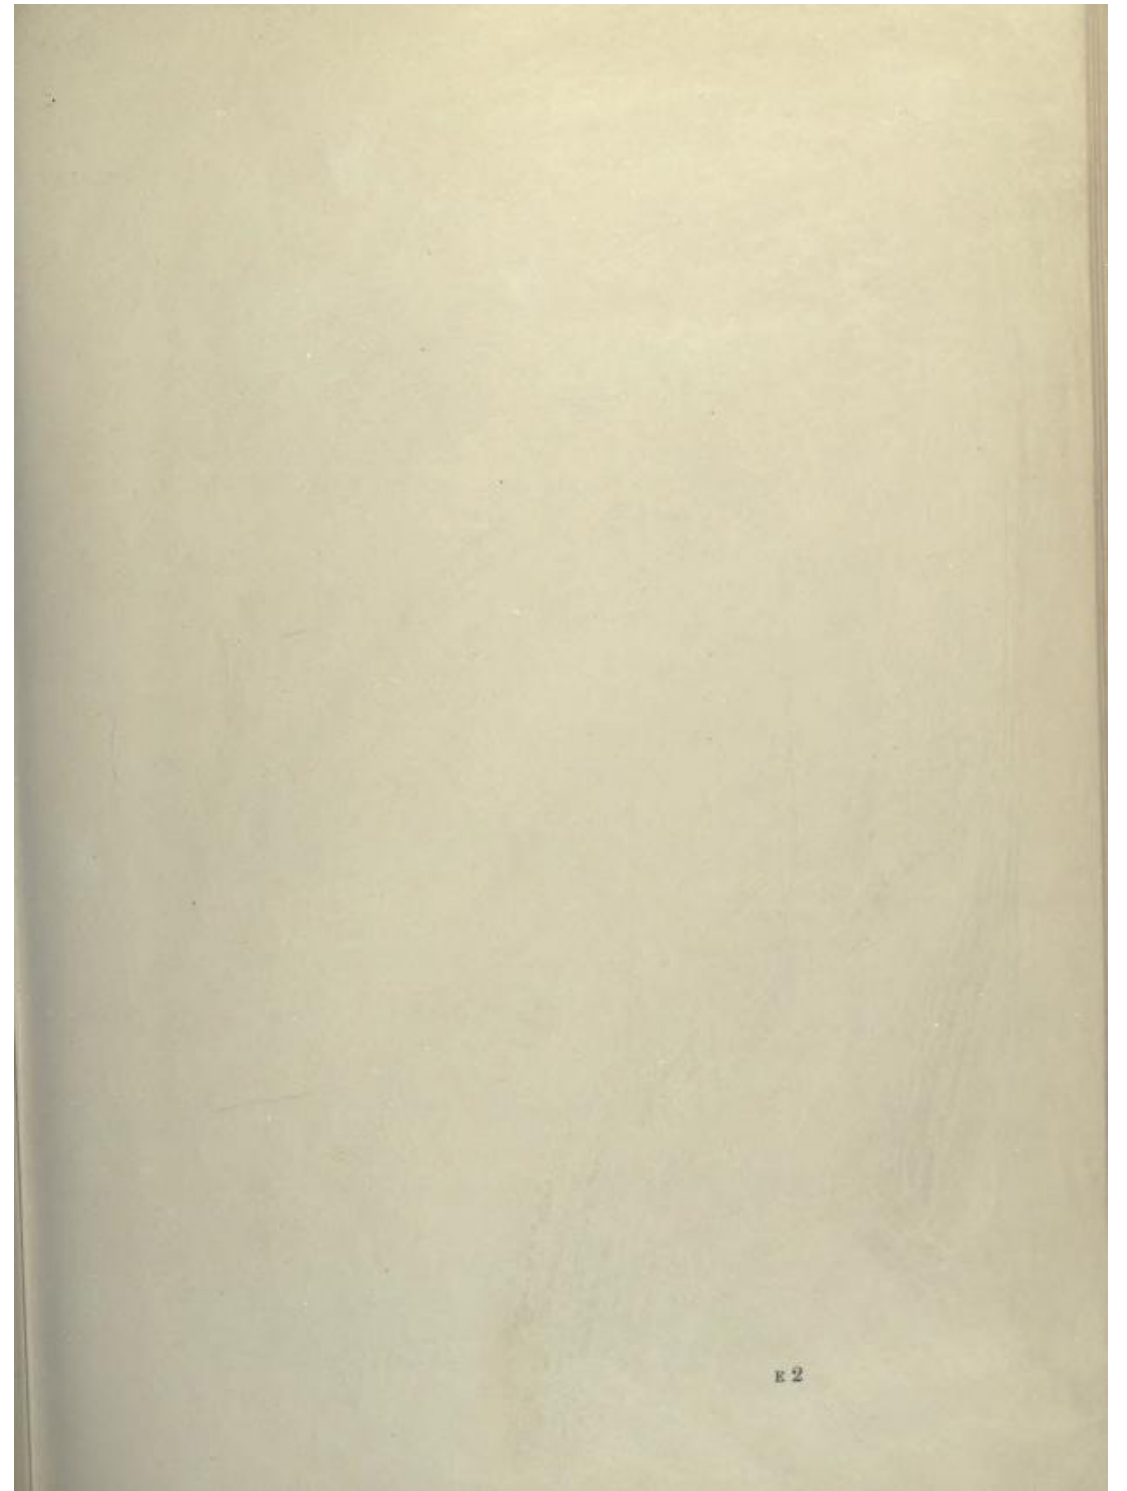

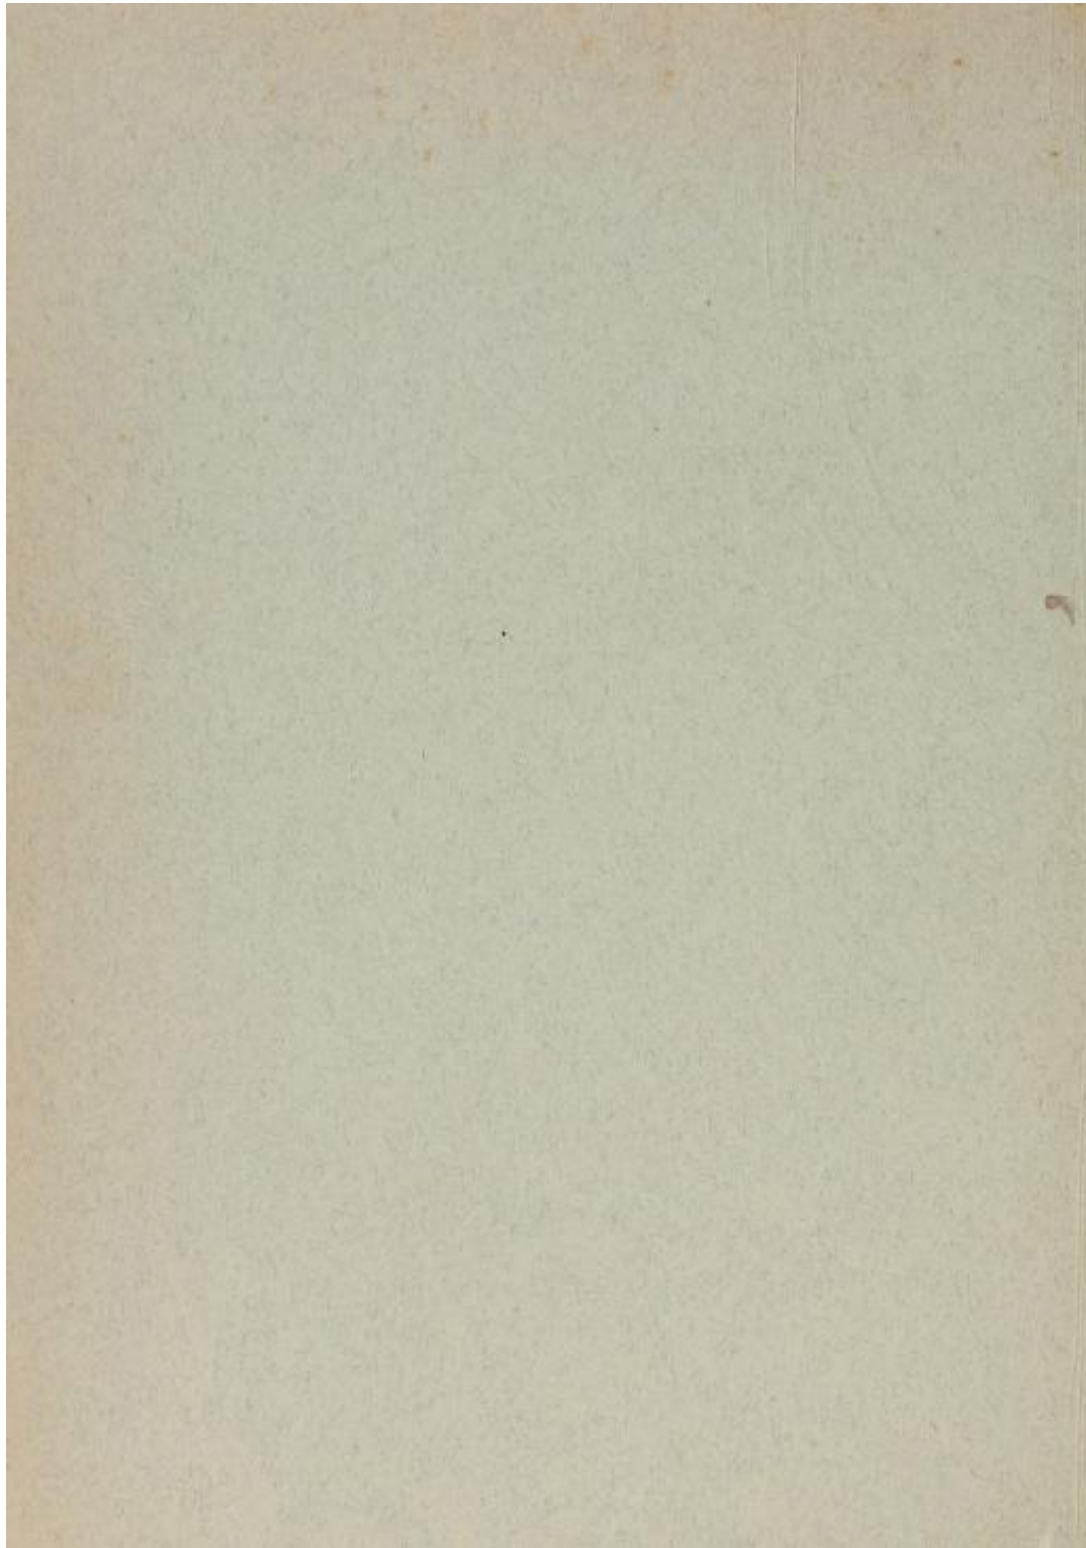

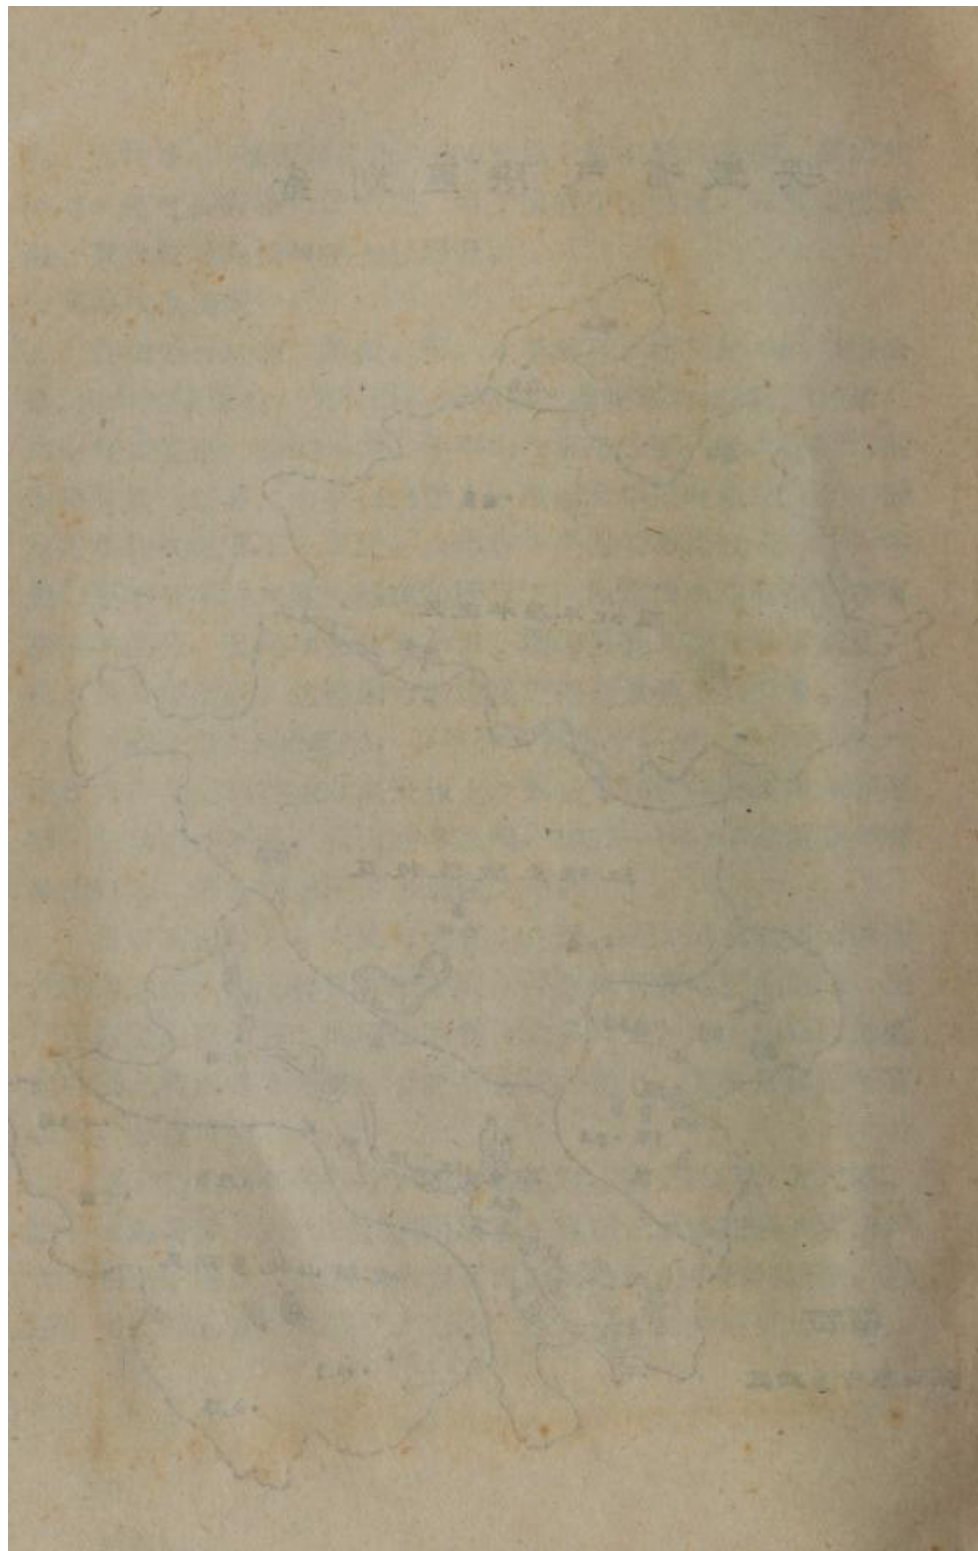

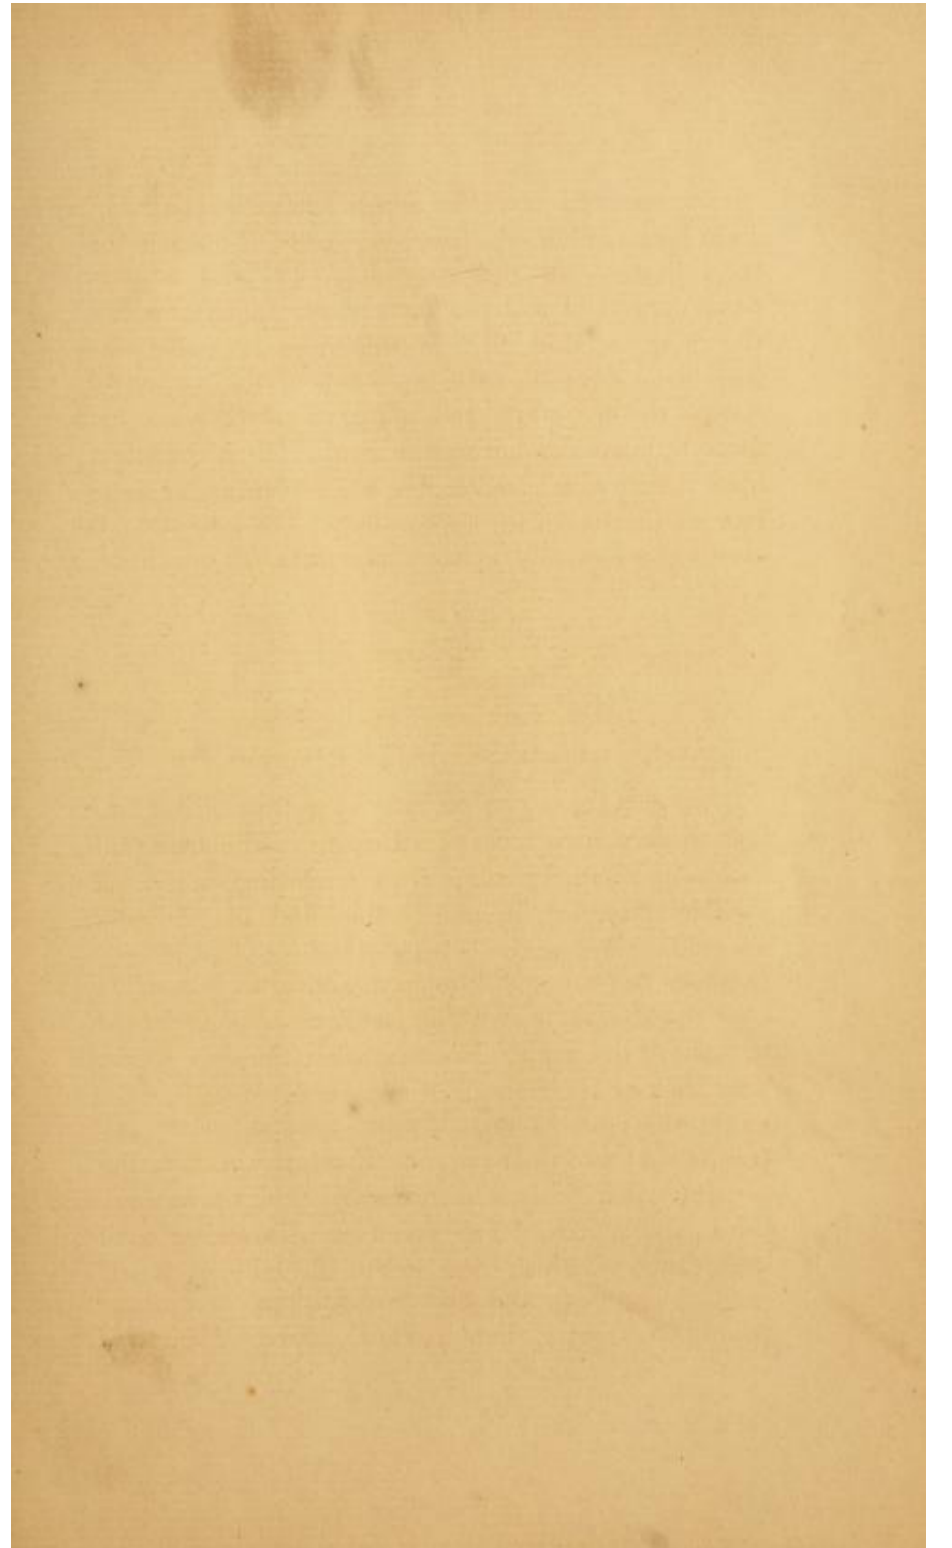

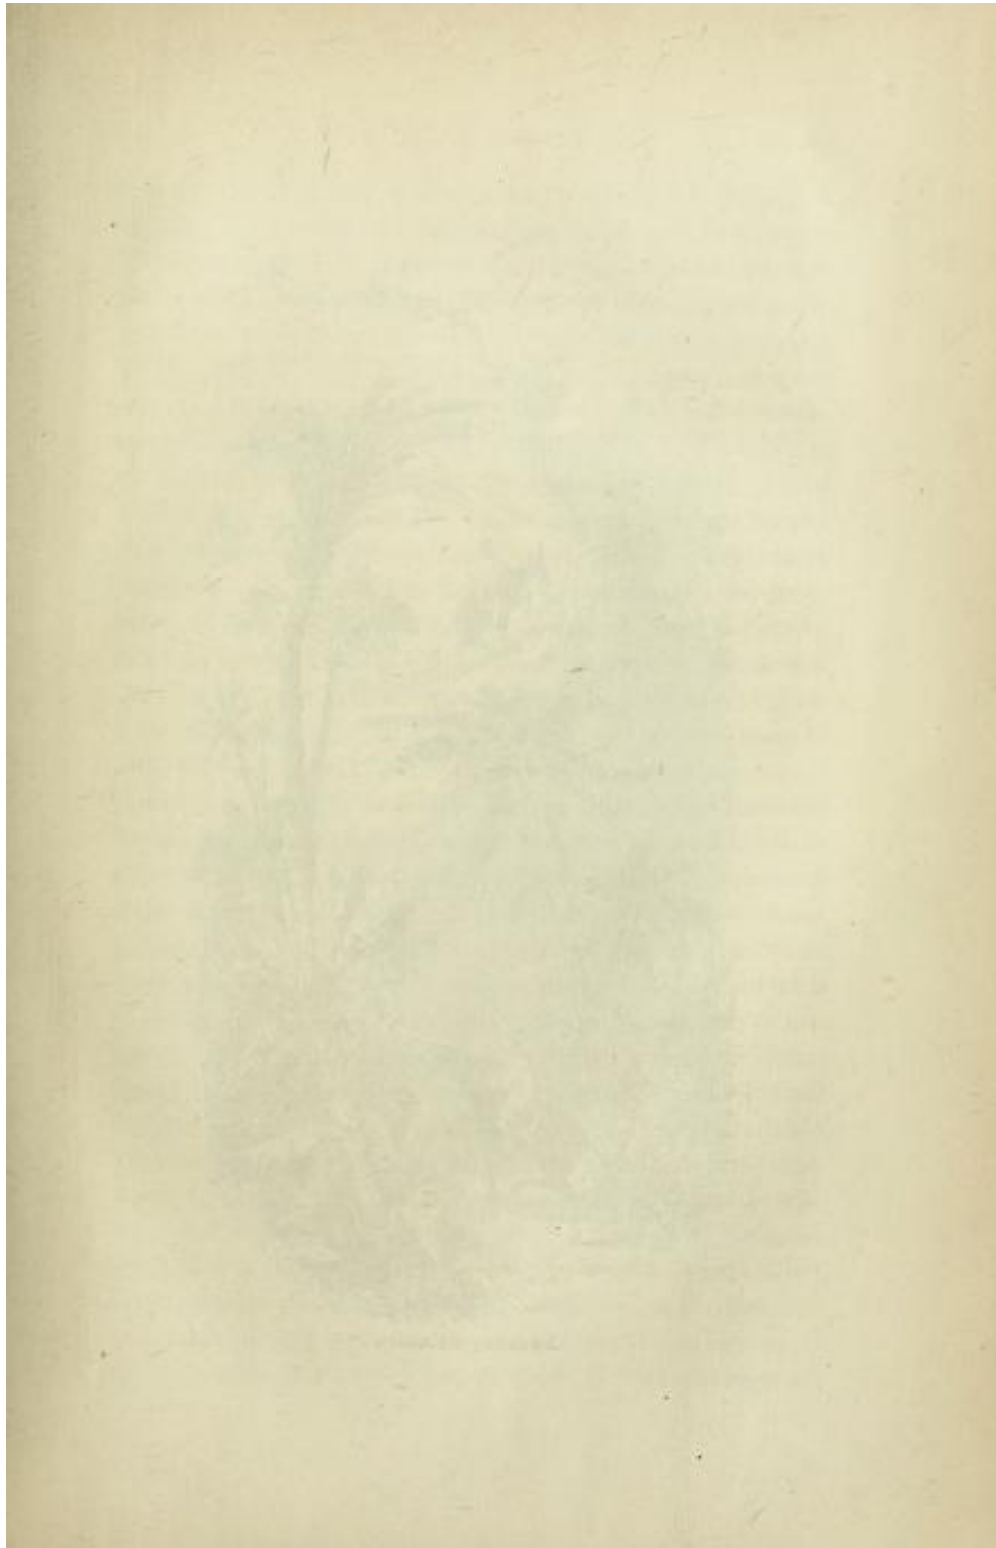

[The text on this page is extremely faint and illegible. It appears to be a list or a set of entries, possibly related to the grid on the adjacent page. The text is arranged in several columns and rows, but the individual characters and words cannot be discerned.]

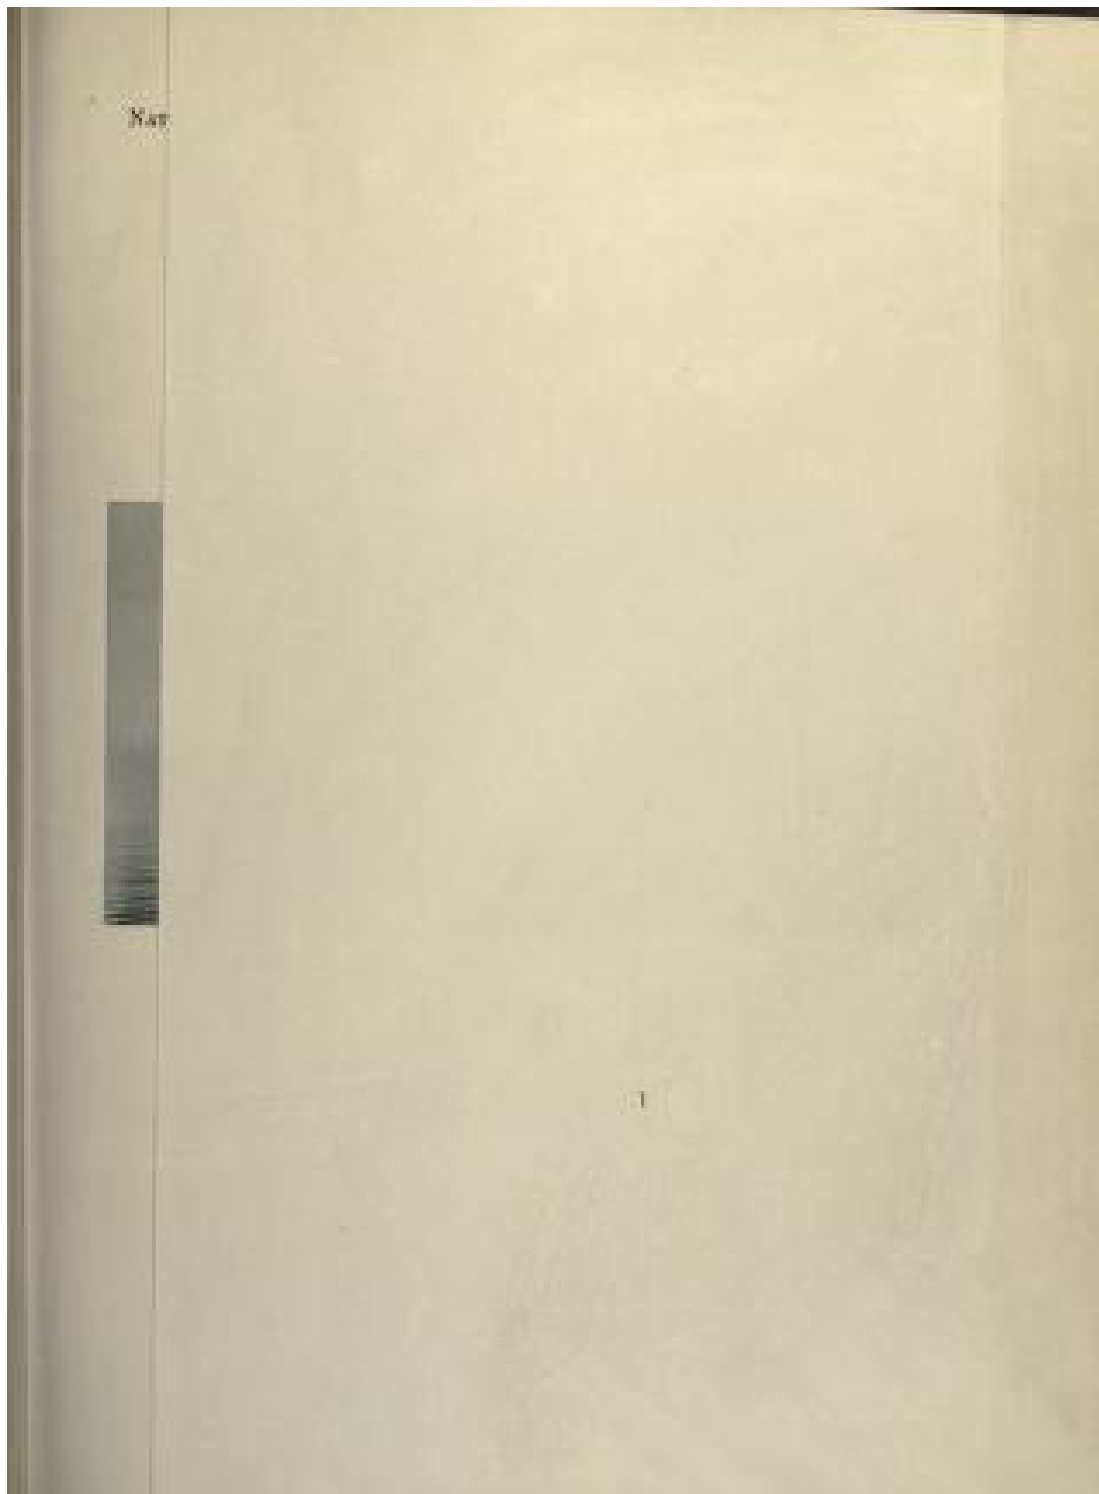

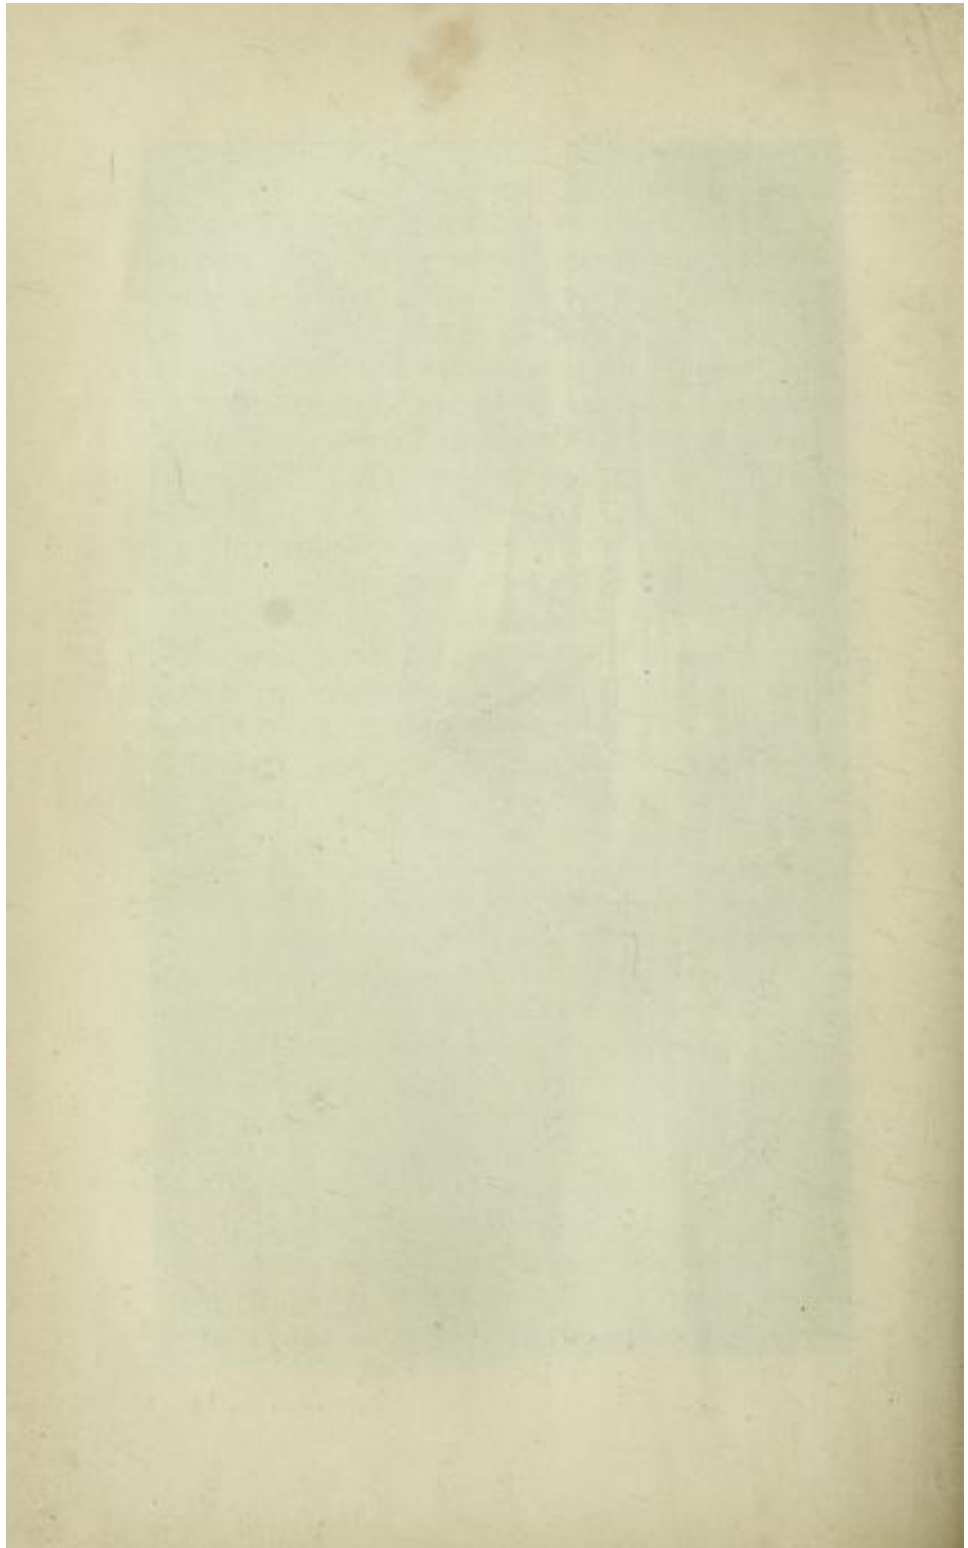

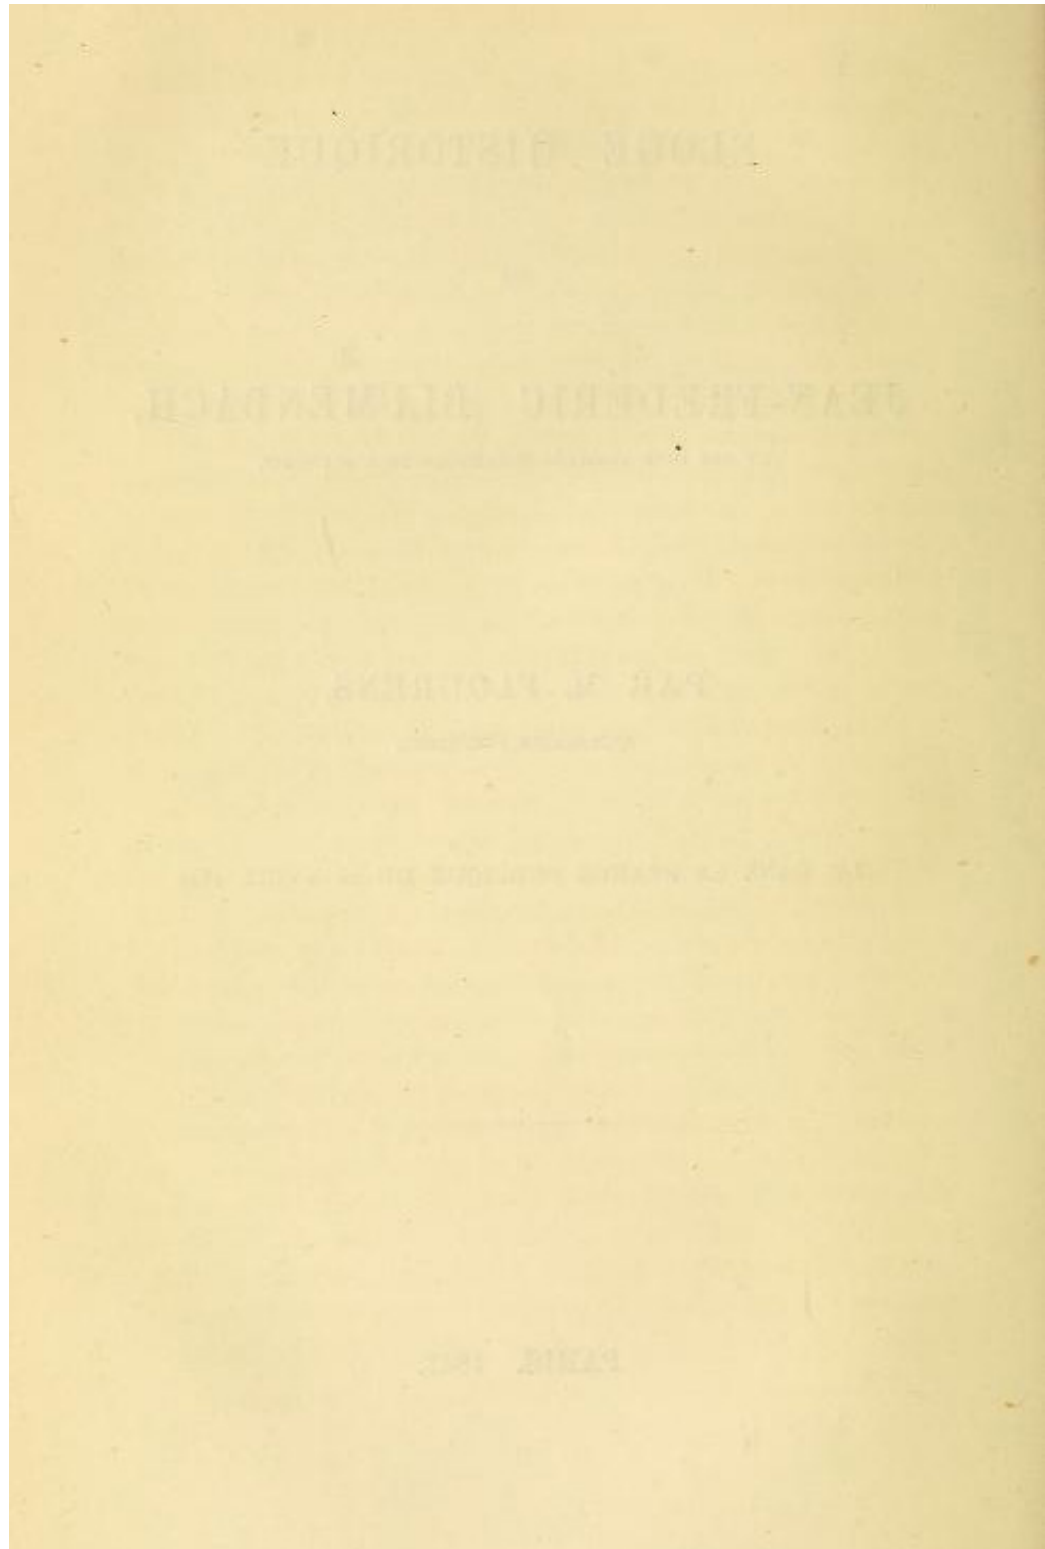

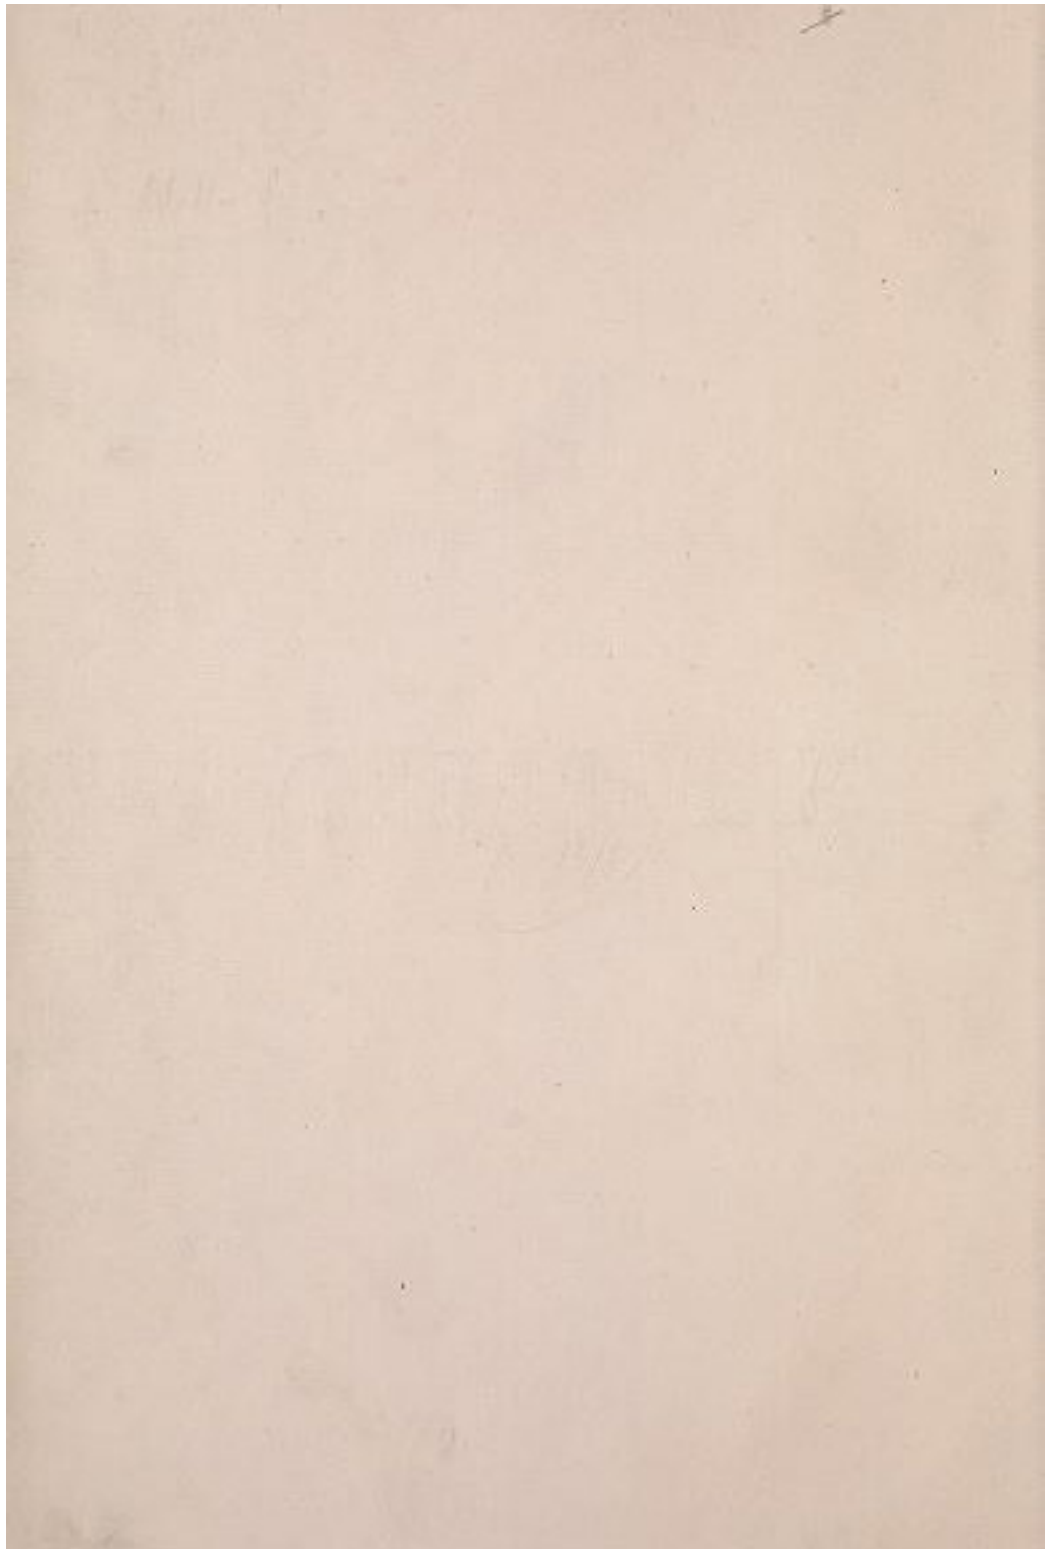

INDEX
